Old sausage factory turned into a beautiful home

The Triplex consists of three floors of fully decorated venue designed to feel like a sumptuously appointed private home. Beneath an Italian Renaissance ceiling mural and skylights, a central 40-foot atrium is surrounded by a grand staircase leading to a 1,000 sq. ft. planted roof garden, complete with a gazebo and fountain created out of an old water tank. The large Edwardian style kitchen comes with a 12-foot trestle table and marble-topped kitchen island.

Three salons are connected by the central atrium: an Art Deco lounge complete with a vintage bar and fish tank, an Oriental library with a Chinese bed, and an 18th century style master bedroom filled with gilded mirrors and antique chandeliers.
