Notes

Film friendly/Event Friendly

Set in a Greek Revival row house built in 1849, the location has the original framework of the three story landmarked house, the second and third floor are gallery spaces, and there is an outdoor courtyard. Equipped with a fully functional kitchen, the space can accommodate many types of events, whether an intimate dinner for 30 or a cocktail party for 250.

Have a commercial grade smoker and can provide barbecue from our in house pitmaster should you choose to forego traditional catering.
