Notes

3,000 square foot triplex apartment in a 1901 Renaissance Revival brownstone in a landmarked neighborhood of Crown Heights on a super block designed by IM Pei. Home retains many historic details, including 5 decorative fireplaces, bay windows, French shutters, French doors, pocket doors, pier mirrors, parquet floors, wainscoting, skylights, and picture molding in various rooms. Most walls are white or light grey, making it easy to style. Decor is modern but cozy. The home has a modern eat-in kitchen with marble island, 3.5 bathrooms, 1 dining room, 1 living room, 3 bedrooms (primary room, baby room, guest suite) and an office.

The apartment is 20 ft wide and layout is as follows: 1st floor: entryway, living room (more formal with architectural features), dining room, eat-in kitchen; 2nd floor: baby room with en-suite bathroom, primary bedroom with en-suite bathroom; 3rd floor: office and guest suite - bedroom/TV room/bathroom. The bedroom on the top floor has skylights and offers a second living room option in the guest suite.

Property includes an architect-designed backyard as well as a front garden and stoop. Front and back facades of home were recently restored.
