Notes

Rare 16,000 square foot California modernist estate just 10 minutes from Manhattan, where sculptural elegance meets total serenity.

This architectural masterpiece invites you into a world of floating staircases, floor-to-ceiling windows, seamless indoor-outdoor living, plentiful natural light, light herringbone wood floors, suspended ceilings, and expansive open plan. A two-story live green wall rises beside the marble fireplace, while sleek lines and textured materials echo throughout three sun-drenched levels.

There are 6 bedrooms and 8.5 marble-clad bathrooms, including a lavish primary wing with walk-in closet, spa bathtub, and four private balconies. Other features include: chef’s kitchen, library, wine cellar, sauna, home bar, gym, game room, and screening room.

Outdoors, there is a Japanese garden and zen courtyard, and four-sided infinity pool.
