Notes

1,100 sq ft artist-designed studio merging raw industrial elements with organic, sculptural design. The space feels like stepping into a living work of art where concrete walls, steel doors, exposed pipes, and curtain-covered partitions frame an unexpected indoor garden. The open floor plan includes a cozy lounge and dining area flooded with natural light, while large windows offer sweeping skyline views of Brooklyn and Manhattan.

On 12th floor of an office building in Brooklyn’s historic Navy Yard. Passenger and freight elevators. Fully equipped for high-functioning productions and gatherings.
