Notes

8-floor building in Fort Greene features an iconic precast silhouette in a distinctive pink color and striking terraces with unobstructed Brooklyn and Manhattan views.

The scalloped surfaces precisely fabricated panels cast ever-changing shadows throughout the day. Two finishes, an acid wash and a sandblasted texture, expose the warm tones of the concrete aggregate, adding complexity and nuance to the facade. The material variation and subtle shifts in orientation create a dynamic effect that will stand the test of time.

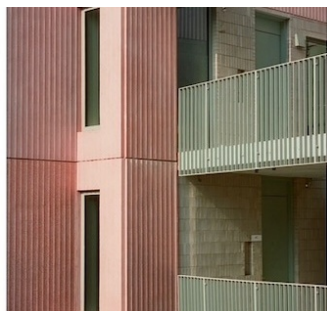

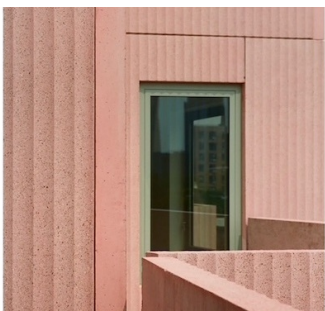

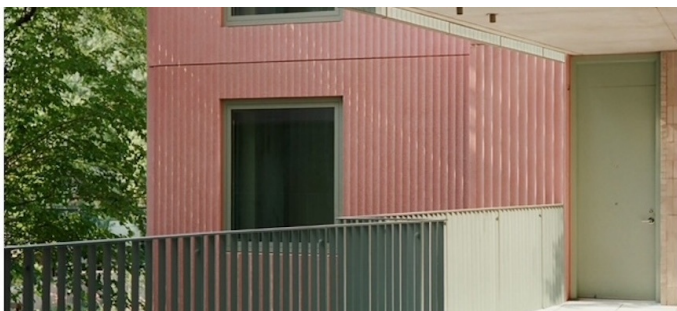

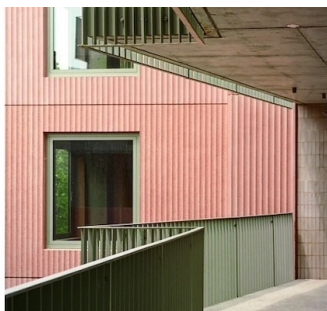

Catering and hair/makeup/wardrobe can be set up in lounge downstairs or parking garage.

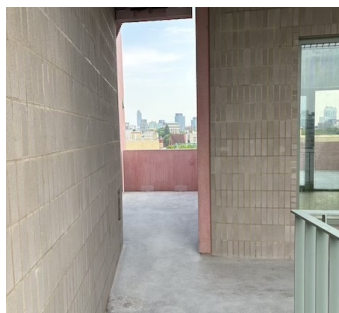

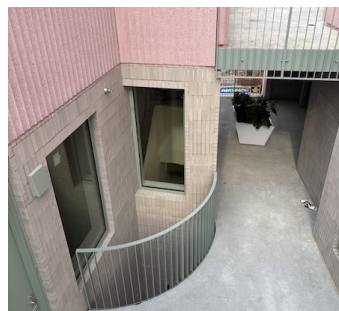

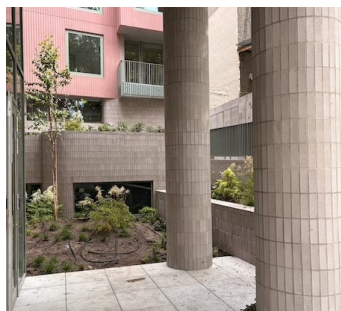

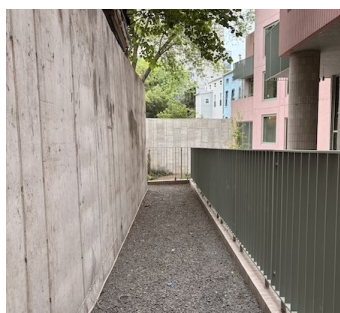

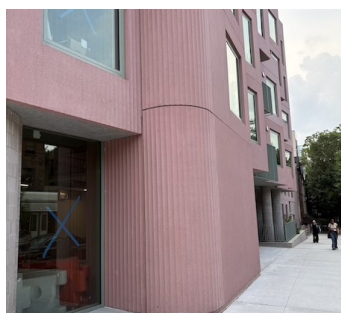

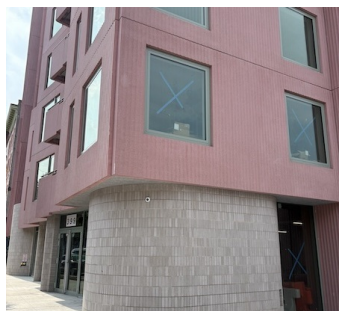

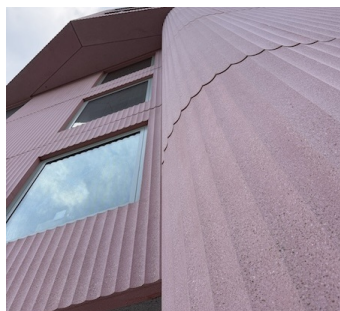

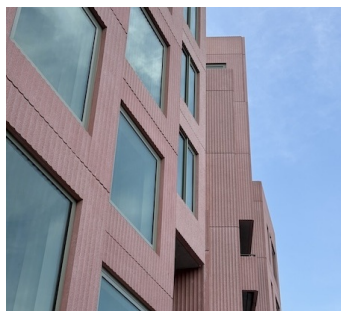

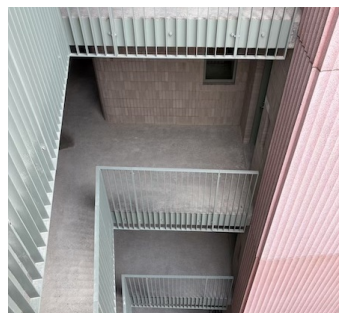

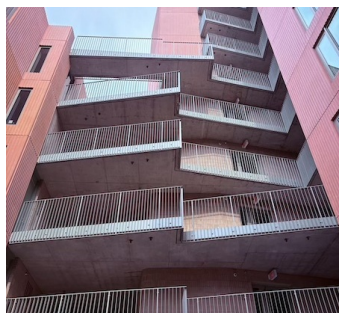

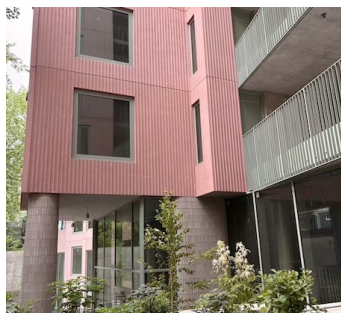

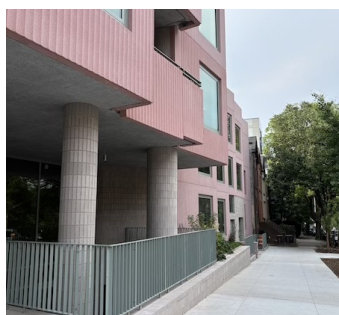

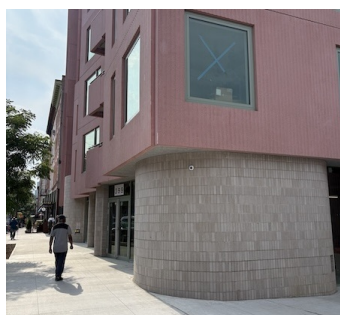

Restrictions:

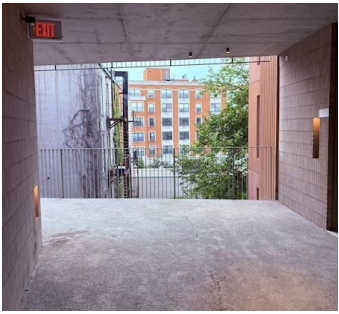

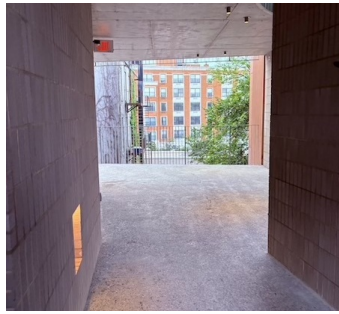

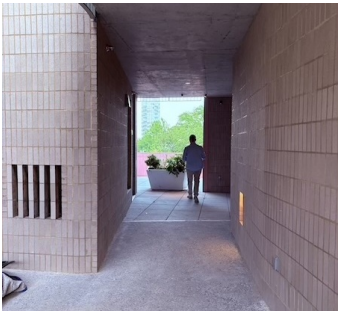

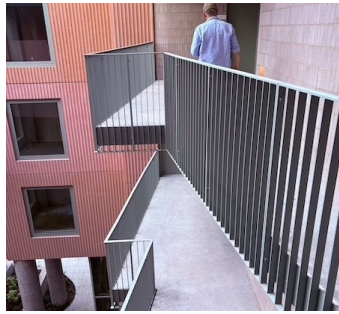

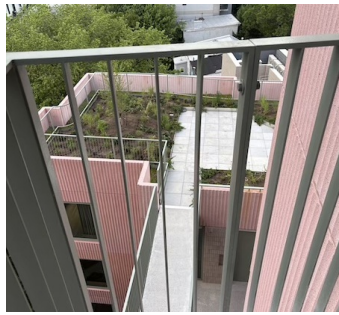

Private residences are off-limits.

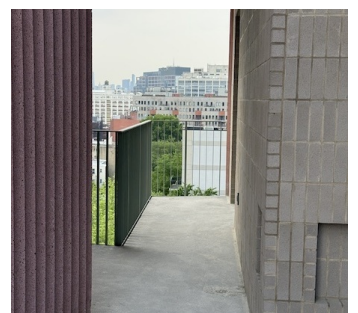

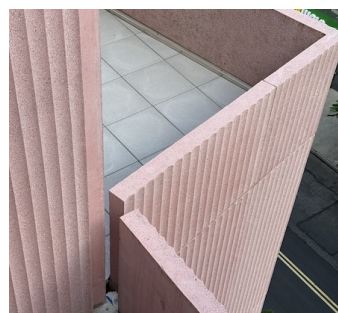

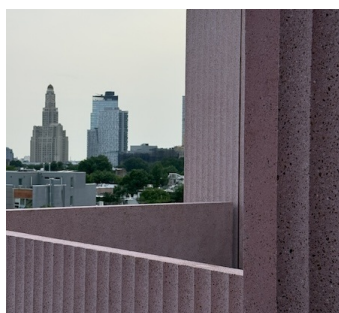

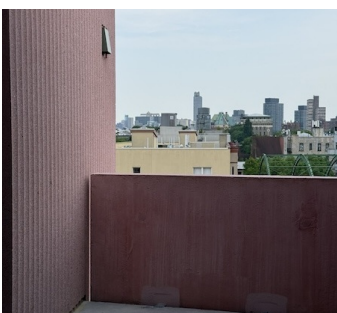

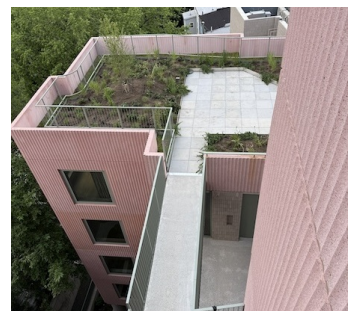

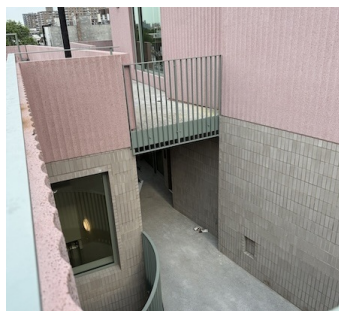

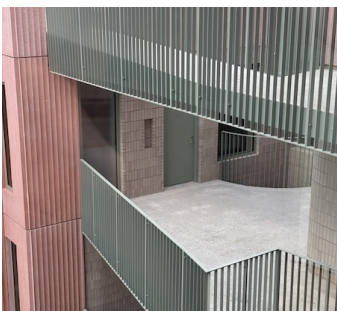

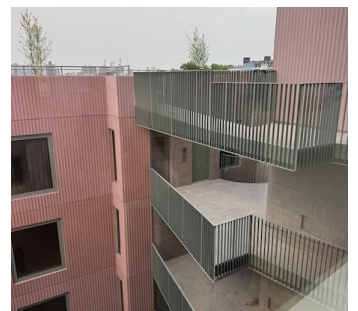

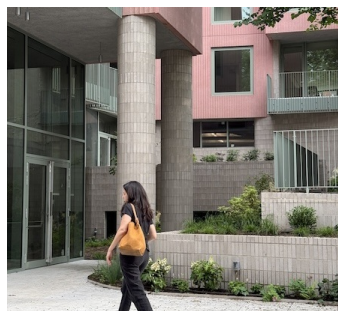

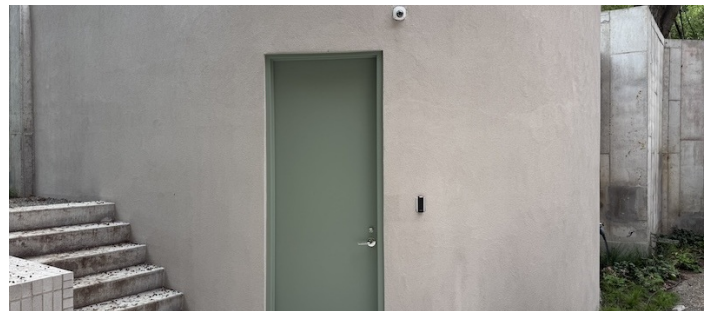

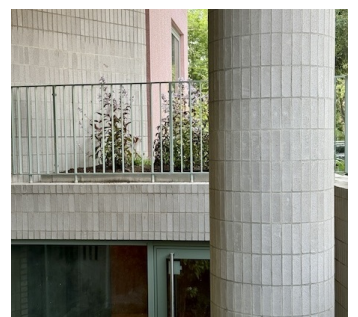

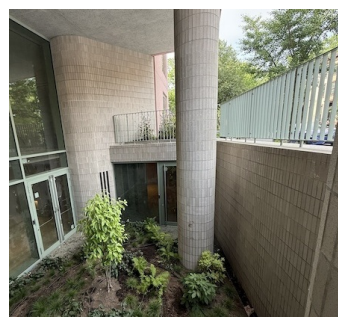

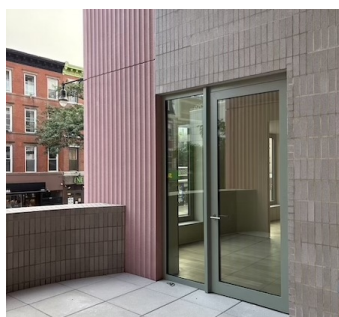

No more than 40 people allowed inside at one time.

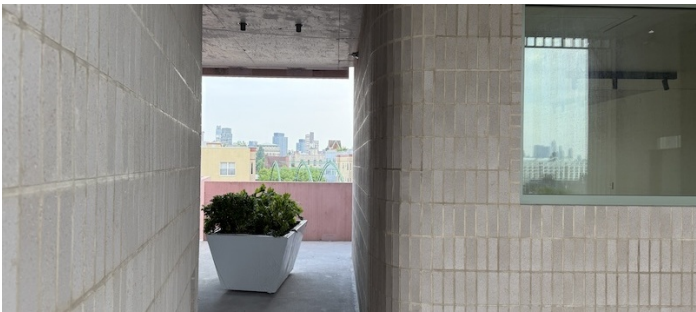

No painting or nailing into walls.

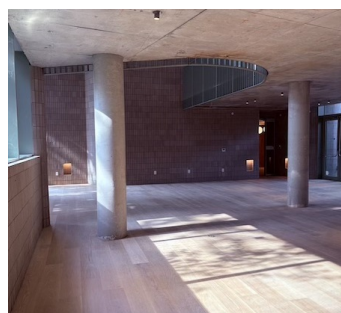

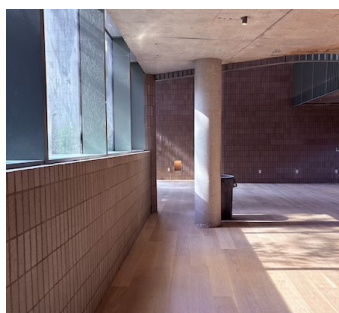

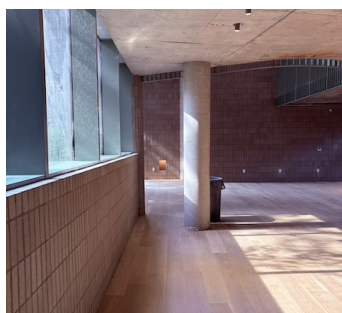

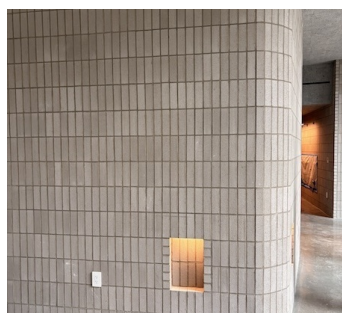

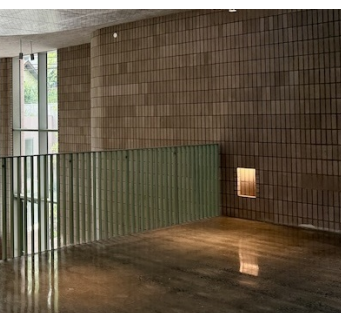

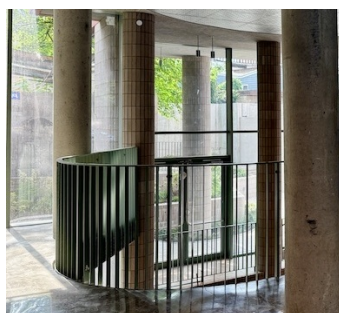

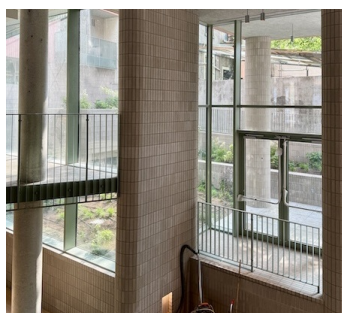

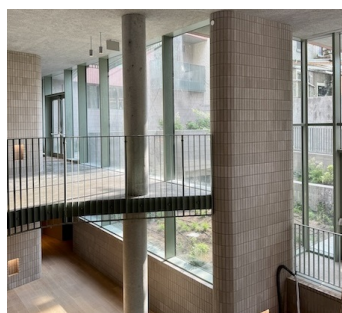

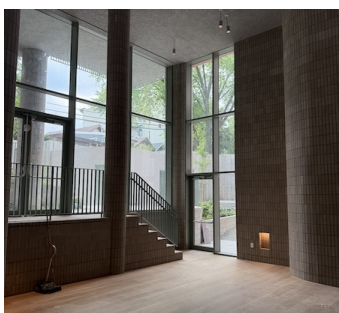

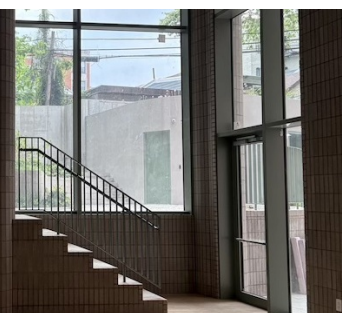

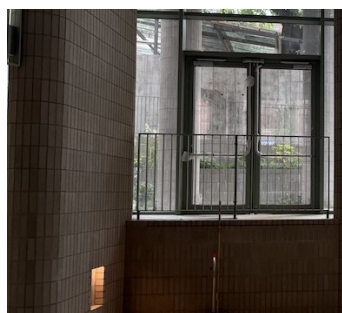

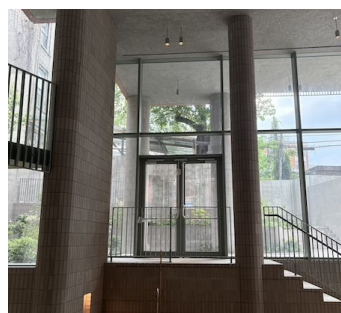

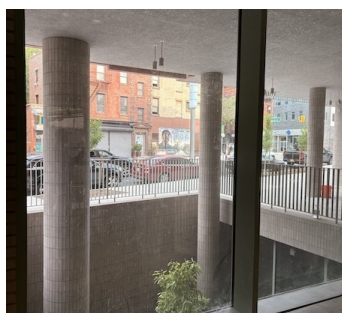

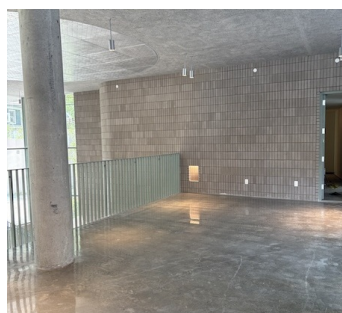

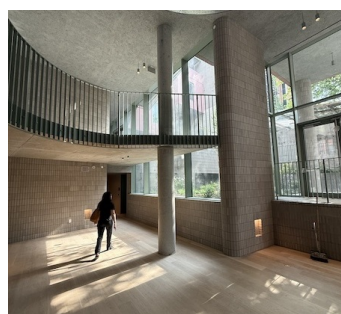

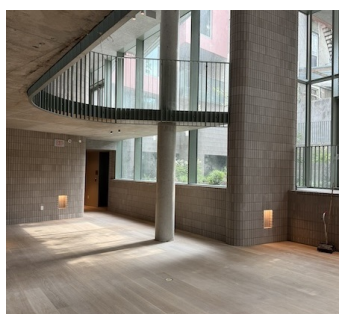

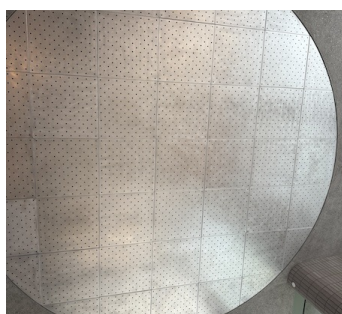

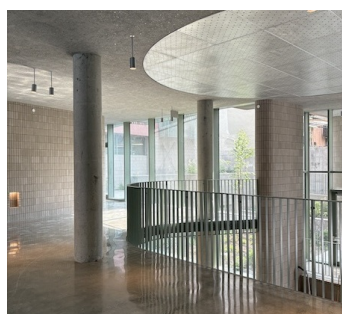

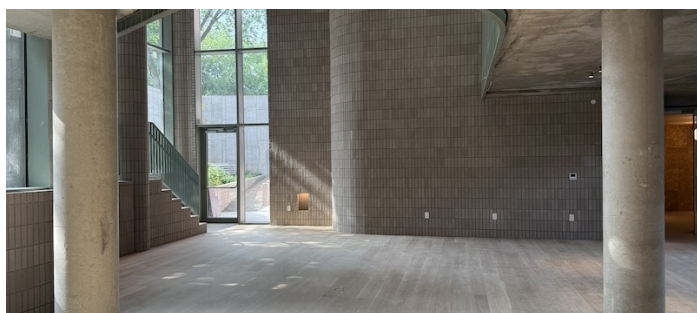

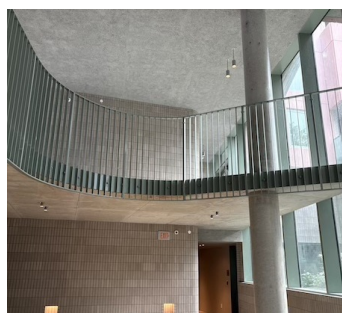

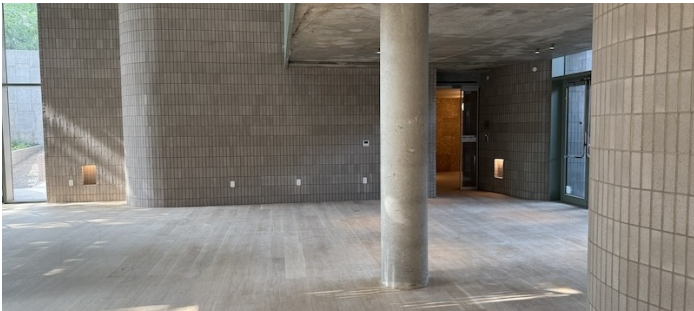

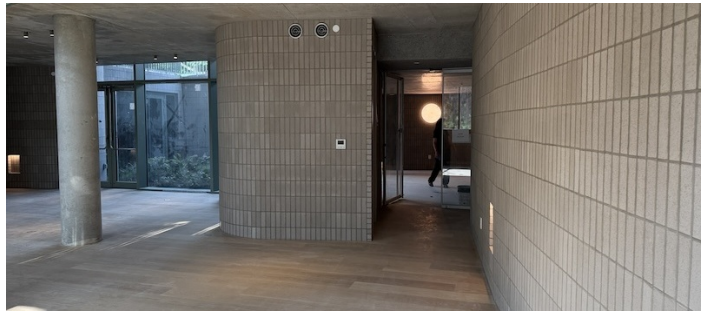

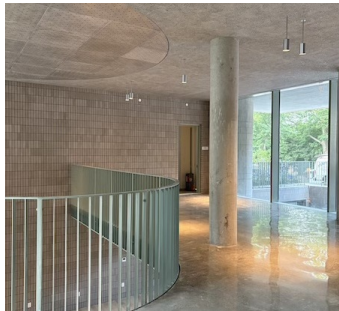

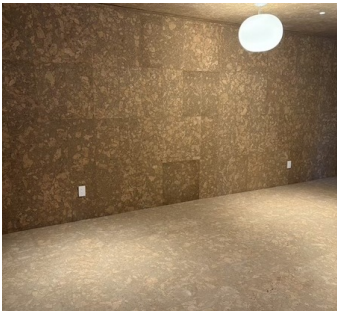

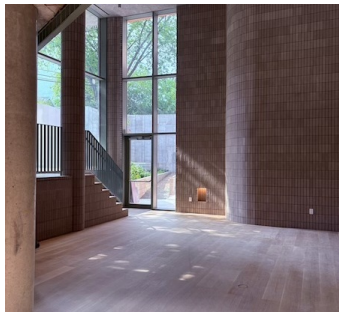

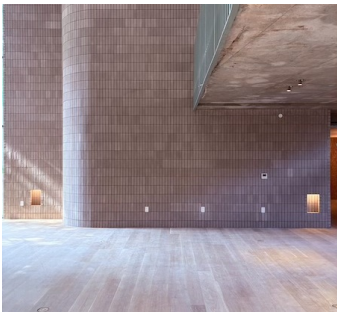

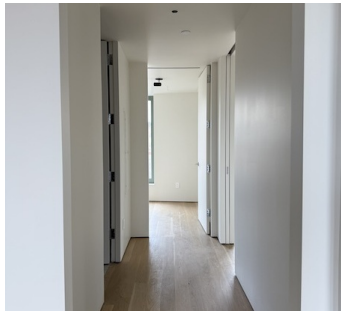

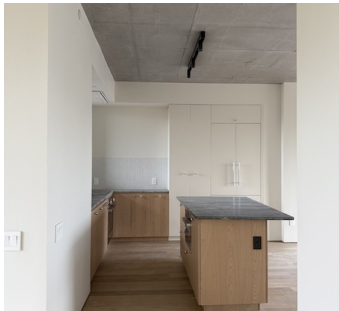

ROOFTOP
