Notes

Film friendly

Grey stone castle built 1984, sits on a hill with a southern exposure overlooking a picturesque valley. The property is 31 acres and about half of it is wooded, the other half open fields. The wooded part slopes down in back of the house where a stream runs through the property for about 350 feet with 5 acres on the other side. The house is built out of local field stone, big yard, wood beamed ceiling, crown molding

ROOF TERRACE
